Conventions used in this Student Guide

Team Number

Throughout the Lab Exercises in this Student Guide the symbol # has been used to indicate your team number.

For example, if you are in team 4 and are instructed to select the SP of point LT10#, you should select the SP of point LT104.

Attention and Caution

Information worthy of special attention is presented in the following format:

<p style="text-align: center;">Attention</p> <p style="text-align: center;">Information written here</p>

Information which, if ignored, could cause equipment damage or data loss is presented in the following format:

<p style="text-align: center;">Caution</p> <p style="text-align: center;">Information written here</p>

Mouse actions

“Click” means use the left button on the mouse.

“Right click” means use the right button on the mouse.

Screen Buttons

Boldface type is used for screen button names and hyperlinks (underlined blue text).

An → is used to link a series of cascading screen buttons.

For example:-

Click on **Continue**.

or:

Click on the **Continue** button.

and:

Choose **System Menu**→**System Configuration**→**Operators**

Keyboard keys

< > are used to denote keyboard keys with multi-character labels, for example:-

<Enter>, <Ctrl>, <F1>.

continued on next page

Conventions used in this Student Guide.....continued

Pulldown Menus

Boldface type is used for menu item names.

An → is used to link a series of cascading menu items.

For example:- **Configure→Hardware→Stations**

Utility names and Commands

Boldface type is used for utility names and commands, for example:-

....using the utility **paswrđ**.

or:

....by entering the command **chgpsw**

Attention

Pressing the <Enter> after the command is implied here. It is not always explicitly stated.

Data Entry

Courier bold text is used to denote data to be entered by the student.

Italic font is used to indicate that each student should enter their own data, for example:

Enter ***Operator_ID,Password***

System Data

Normal Courier text is used to denote data displayed on the screen, for example:

Control executed successfully
