**429R320****PlantScape Process Operations****Course Description**

This course provides training in the operation of a process using PlantScape Station. The course covers operations using standard displays, standard function keys, and typical custom displays. The course is made up of lectures supported by practical exercises that simulate operation of a generic process. The 1 day course covers operations with Non-Hybrid controllers and there is an additional day to address hybrid controllers specifically.

**Course Modules**

<b>Module Name</b>	<b>Module No.</b>	<b>Time (hrs)</b>	<b>Student Signoff</b>	<b>Manager Signoff</b>
PlantScape Process Operations	M429R320	0	_____	_____
Introduction and Architecture Overview	429U1	0	_____	_____
Database Description	429U2	0	_____	_____
Operations	429U3	0	_____	_____
Manual Process Operation	429U4	0	_____	_____
Operating Sequential Control Modules	429U5	0	_____	_____
Review Exercises	429U6	0	_____	_____

+ Course manager approved equipment required.

\* Optional - check with your course manager.
